Summary of *The Great Sharing*

It was an ordinary night when ArcHive—the global hub of personal data—malfunctioned, resulting in a massive data breach. Anyone could see all the data that had ever been uploaded to ArcHive. Chat logs, photo albums, personal information, and classified documents all became transparent to us.

Violence, cries, war. The world plunged into chaos.

Driven by curiosity, a mother accessed her son's archives who had just recently passed away, only to discover the resentment her gravely ill son had towards herself for all these years...

Midnight. ArcHive Corp finally repaired the system, but every single data had also been wiped out.

Everything returned to peace and started anew, but the world was no longer the same.

那個夜晚，全球人類的資訊中樞系統 ArcHive 故障，造成大規模的資料外洩。只要連上網路，人人皆可以看到所有曾今被上傳到 ArcHive 的資料。聊天記錄、相簿、個人資料、被封存的機密文件一切透明化。

暴力、哭喊、戰火。世界頓時陷入一陣混亂之中。

在好奇心的驅使下，一名母親打開了她兒子生前的檔案，卻發現多年被病痛折磨的兒子一直恨著自己……

午夜鐘聲敲響了。ArcHive 集團修復了系統，同時也刪除了所有人的檔案。

一切恢復平靜。一切從新開始。這個世界卻不一樣了。
